

Professional Training Services

KASE/Warbonnet's certified trainers are qualified to conduct a variety of environmental and safety courses for your personnel. With both classroom and "real world" experience, KASE/Warbonnet's trainers are able to communicate with your staff in terms that make training both relevant and retained.

Examples of specific training services available include:

- 40-hour OSHA Hazardous Waste Operations and Handling
- 24-hour RCRA Hazardous Material Technician
- 8-hour Hazardous Waste Operator annual refresher
- 30-hour OSHA General Industry Training Program
- 10-hour OSHA General Industry Training Program

Safety Program Development

KASE/Warbonnet's proprietary Job Planning Safety Analysis (JPSA) program has proven to be effective in increasing safety awareness among field personnel, with a corresponding dramatic reduction in lost-time and recordable accidents.

KASE/Warbonnet safety trainers are available to consult on implementation of the JPSA program in your company or division, or to conduct on-site job planning safety analyses for specific projects.

KASE/Warbonnet has also developed guidelines for performing safety reviews at appropriate times throughout the project life cycle. The degree of detail in project safety reviews is appropriate to the project.

Types of project safety reviews include:

- Conceptual Hazard Reviews
- Definitive Design Hazards
- Process Hazard Analysis (PHA)
- Pre-Startup Safety Reviews
- Post-Startup Safety Reviews

OSHA Training Course Examples:

- Respiratory Protection
- Personal Protective Equipment
- Electrical Safety
- Fall Protection
- Hazard Communication & Right-to-Know
- Confined Space
- Lockout/Tagout

...Many others,
as required.

Certifications.
